

What is Claimed is:

1. A medicament for therapeutic and/or preventive treatment of restenosis or reocclusion after a vascular recanalization operation, which comprises as an active ingredient a compound represented by the following formula or a physiologically acceptable salt thereof.

2. A medical device for an intravascular treatment, which contains the compound according to claim 1 or the physiologically acceptable salt thereof in a releasable form.

3. The medical device according to claim 2, which is an intravascular indwelling stent.
